Q: Google Analytics Event Tracking Doesn't Work I can't seem to get GA to do anything. I have enabled GA Event Tracking and its done. I have added the UA-xxxxxx-xx to the Event Tracking Code. All the metrics I am measuring are there... Even when I don't have anything in GA to measure anything, the metrics are all there. I also did a test to test it and it is not happening. A: The page I was working on wasn't actually on the domain. Once I got it on the domain GA magically started measuring the events. This is definitely an edge case, but I am glad to have the GA working.

University of Otago in Dunedin, New Zealand has made the first of a limited number of prototype of laser-fibers that could enable much faster internet service than today's existing copper wires. The university's scientists have created a prototype
